PROGRAM OVERVIEW

Project decisions, not just definitions.

About the training

The PMP exam presents real project situations: a struggling team, a scope change, an unhappy stakeholder, value that is not landing. This training links every exam domain to situations like these and builds the habit of choosing the right action for a project manager.

The exam at a glance

Question format

Item types

Single and multiple response, drag-and-drop and hands-on items.

Approaches

Situations span predictive, agile and hybrid projects across all three domains.

SCENARIO ITEMS

How to work through a scenario item

01

Identify the approach

Predictive, agile or hybrid? The best answer depends on it.

02

Know your role

What should the project manager do now, before escalating?

03

Choose the best action

Favor what protects value, the team and stakeholders.

WHO THIS TRAINING IS FOR

For those who lead projects and own their results.

This suits you if you:

- ✓ **Lead projects or own planning and outcomes**
  You manage scope, schedule, team and stakeholders.
- ✓ **Can document PMI eligibility**
  You have documented project leadership experience within the last 10 years.
- ✓ **Work across predictive and agile approaches**
  You move between phased plans and iterative delivery.
- ✓ **Want scenario-led preparation**
  To understand why an answer is right before memorizing it.

Roles at this level

Illustrative roles that work at this level; PMI determines eligibility.

- ✓ **Project manager**
  Leads delivery from planning to closure.
- ✓ **Program manager**
  Coordinates related projects toward one goal.
- ✓ **PMO lead**
  Sets standards and governance and tracks the portfolio.
- ✓ **Delivery manager**
  Makes sure value reaches the customer on the agreed timeline.

OFFICIAL BLUEPRINT

PMP exam domains for 2026

PMI introduced a new exam content outline on 9 July 2026, with three domains.

PMP Examination Content Outline

People — 33%

- Leadership and team performance
- Communication
- Stakeholder engagement
- Shared vision and customer expectations

Process — 41%

- Planning and execution
- Measurement and quality
- Risk
- Delivery

Business Environment — 26%

- Compliance
- Value
- Change
- Alignment with organizational goals

What changed in 2026?

Domain	2021 outline	2026 outline
People	42%	33%
Process	50%	41%
Business Environment	8%	26%

What this means for study

Business Environment more than tripled in weight, so the training gives more time to value, compliance and organizational alignment.

HOW VERTEX BUSINESS STRUCTURES THE TRAINING

Three domains, each built on project situations.

The training connects people, process and business decisions to situations from predictive, agile and hybrid projects.

01 People

Leadership, communication, stakeholders and team performance.

> **Applied example** Two team members disagree on task priority before a deadline.

02 Process

Planning, execution, measurement, risk, quality and delivery.

> **Applied example** A scope change request arrives after the plan is approved.

03 Business Environment

Compliance, value, change and alignment with organizational goals.

> **Applied example** A shift in company priorities affects the project's business case.

LEARNING OUTCOMES

What you will be able to do

01 **Map the outline to project situations**
And identify which domain each question tests.

02 **Balance people, process and business decisions**
In a single multi-party situation.

03 **Choose the action by approach**
In predictive, agile and hybrid scenarios.

04 **Build a revision plan**
Around your gaps and the 2026 weights.

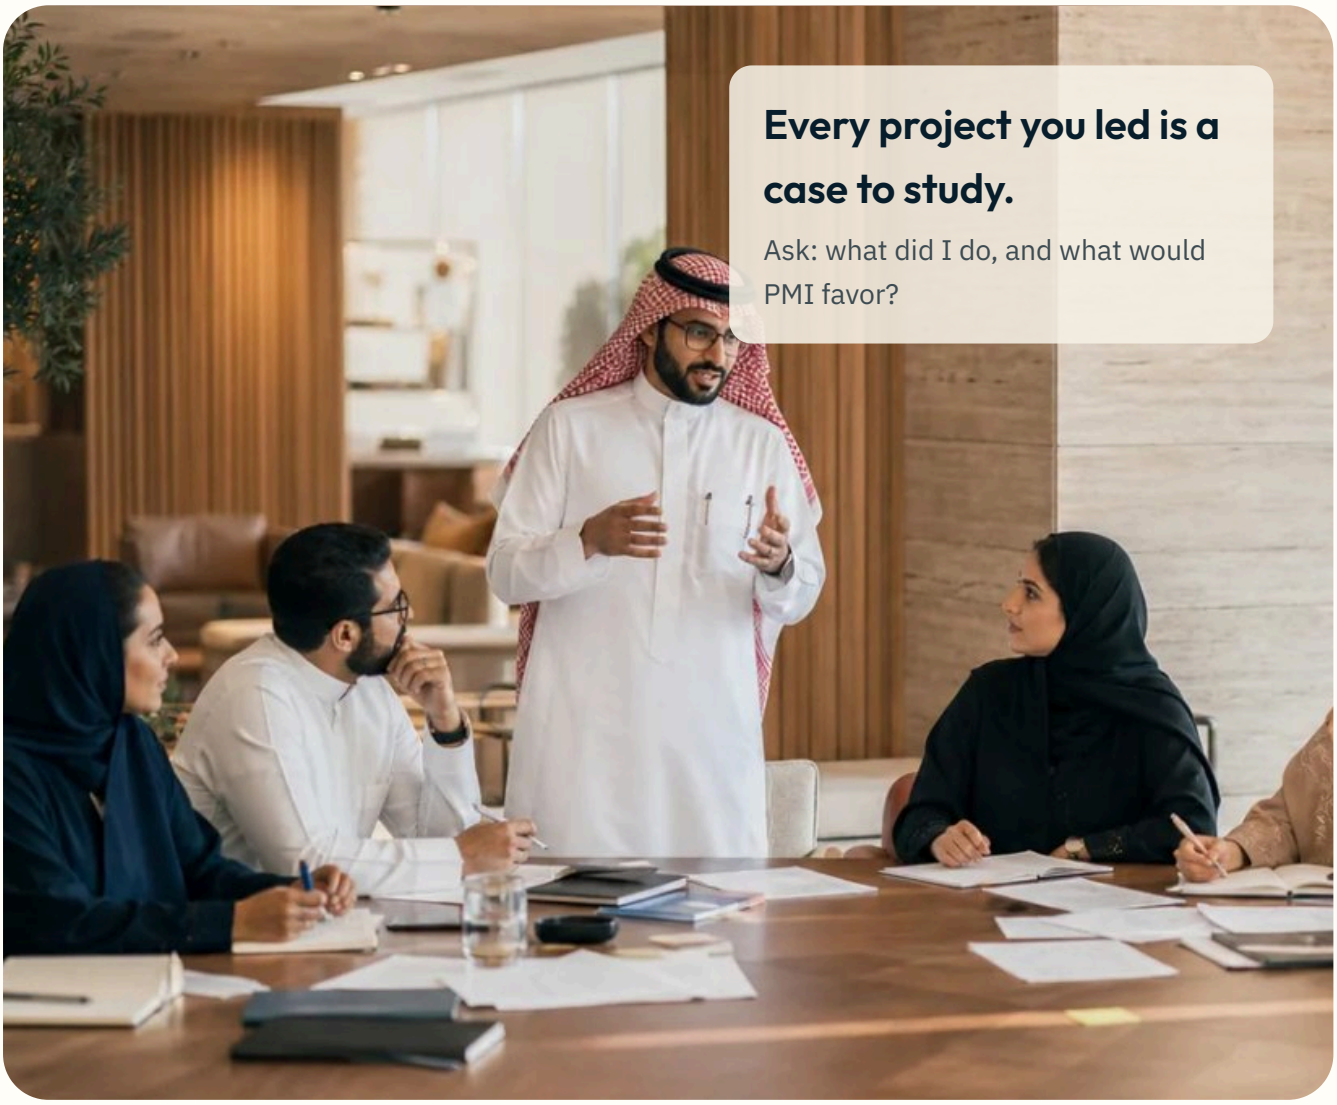
Scenario-led training

The training links every domain to situations from predictive, agile and hybrid projects.

Arabic explanation, exam terminology kept

Concepts are explained in Arabic while the English terms stay exactly as they appear on the exam.



STUDY PLAN

A practical plan from your starting point to exam day.

01 **Find your starting point**
Rate yourself on the three domains and on predictive and agile approaches.

02 **Split time by the 2026 weights**
Process 41%, People 33%, Business Environment 26%.

03 **Learn a concept, then apply it**
Link each concept to a project you led: what did you do, and what was best?

04 **Practise and review mistakes**
Use the practice questions available to you, and revisit every miss a few days later.

05 **Write down your reasoning**
Especially for scenarios where more than one answer looks right.

06 **Pace yourself**
180 questions in 240 minutes: about 80 seconds each.

Predictive projects
The approved plan, change control and phases.

Agile and hybrid projects
Iterative delivery, adaptation and leading a self-organizing team.
